JANESVILLE :: WISCONSIN.

TUESDAY MORNING, SEPT. 12, 1854.

ROCK COUNTY REPUBLICAN CONVENTION.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Republican Platform" adopted at Madison on the 13th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on TUESDAY the 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville on THURSDAY, the 13th day of October next, at 2 o'clock P. M., to nominate a county ticket.

The towns and wards will be entitled to representation in the county convention as follows:—
to wit:

Avon,	3	Janesville 1st ward	4
Belvidere,	10	" 2d ward	4
Bradford,	4	" 3d ward	4
Center,	5	" 4th ward	5
Clinton,	5	Milton	5
Fulton,	4	Magnolia	3
Harmony,	4	Newark	4
Lima,	4	Plymouth	4
Johnstown,	5	Porter	4
La Prairie,	3	Rock	4
Janesville, town,	8	Spring Valley	3
Turtle,	5	Union	5

L. P. HARVEY, J. H. BURG,
John Howe, S. G. COLLEY,
G. H. WILLISTON, A. HASKINS,
Peter SCHMITZ, J. DAWSON,
E. VINCENT,
County Committee.

17th SENATORIAL DISTRICT CONVENTION.

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention—Second District.

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Bad Ax, La Crosse, Monroe, Polk, Pierce, Trempe a' leau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglas and La Pointe, who are opposed to the Nebraska iniquity, and in favor of the principles announced in the "REPUBLICAN" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 18th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committee,

WM. A. WHITE, Chairman.

THE COUNTY FAIR.—The prospects for a large turn-out on this interesting occasion; for a full display of articles, and for a good time generally, are encouraging. The late rains have laid the dust and left the roads in good condition, besides cooling off the atmosphere to a more agreeable temperature. We shall be disappointed, if there is not a much larger attendance than at any preceding fair.

THE WISCONSIN FARMER.—The September number of this useful periodical has been issued and contains the usual amount of valuable agricultural, horticultural and mechanical information. The only fault we have ever been inclined to find with "Farmer" is the ruinously low price at which it is afforded. It is too cheap by one half. No publisher ought to endure the toil necessary to get it out, and no farmer ought to ask for it, for less than one dollar per year.

It has passed into an axiom, that publishers of papers are the most poorly paid of any class of business men, considering the amount of labor and responsibility devolving upon them.—Men of abundant means, who are ready to lavish money upon a thousand useless objects will higgle an hour to reduce the price of a newspaper a few cents, and then perhaps when the minimum is reached, wish to pay in something besides money, always holding their own articles at the very highest market prices. The prices of labor and of paper are constantly advancing, and yet a corresponding advance upon the subscription price would probably be the means of a diminution of the already too slender support of the newspaper.

It is a grievance springing from several causes, perhaps irremediable, the principal of which are, a want of proper appreciation by the public of the value and usefulness of the newspaper; the disposition of young adventurers to multiply the number of presses, thus dividing the patronage, and the ruinous competition of cheap city papers. Through these causes, papers that deserve to be handsomely supported and ought to become permanently established, drag out a precarious existence, meeting and surmounting discouragement and embarrassment at every step, and only kept up by the delusive hope of a better time coming.

Syracuse, Sept. 6.

CONVENTION OF THE "SOFTS" AT SYRACUSE.—The democratic soft shell convention met here to-day. There is considerable excitement. The Nebraska men held a caucus, headed by Rynders, and resolved to withdraw from the convention if anti-Nebraska resolutions were passed.

A third and still larger party than any which has preceded it, will be ready to leave Massachusetts for Kansas on the 25th instant. The Weston braggarts are likely to have their hands full if they undertake to "remove" all the females who have already gone or are preparing to go, to that territory.

Chicago, Sept. 5.

CHICAGO DUELIST.—A young man named Short, a clerk in a dry goods store in this city, and a young lawyer named Pocock, from Chicago, fought a duel in Kentucky yesterday. Short was fatally wounded in the left breast at the second round. They fought about a young girl to whom Short was engaged.

THE GOVERNOR OF NEBRASKA.—Mr. Burt is a South Carolinian. But the Maysville, Ky., Express, a democratic paper, owned and edited by a democratic member of congress, takes the "starch" out of Governor Burt in the following manner. Of course these locofocos ought to know one another:

When *His Executive Highness* offered to Gen. W. O. Butler the governorship of the territory of Nebraska, a spirit of shame went creeping through the democratic ranks of the west and south, and a deep blush suffused the cheeks of the demicacy throughout the union. The insult was felt and acknowledged by the whole country, and some did not hesitate to cry out against the foul blot made by the president and his communists. But now, when a deeper wrong and more palpable insult has been offered, they are all silent and seem to have forgotten the stigma which is resting upon them, or perhaps they do not know who has condescended to accept the office so justly refused by Gen. Butler.

"His excellency, Gov. Francis Burt," late third auditor and first overseer of the treasury under James Guthrie, is the individual, and if the cabinet had raked creation with a fine toothed comb, they could not have found another such man, or have more effectually completed the insult to one so much superior in honesty and worth. Mr. Burt never having participated to any extent in politics, save to change his coat for the occasion, and be "pig or puppy" as the case might require, has only been observed in his social and official capacity as a tool to the secretary of the treasury, and a spy in particular over the "hands," as he is pleased to term the clerical contractors and employees of that department, and all those who have been connected with him in cases where demagogism, pomposity, and codfish aristocracy might be manifested, have never failed to turn from him with contempt and disgust. "In blissful ignorance" of law, equity, or justice, his arbitrary power was exercised in a most ludicrous, and sometimes in a most troublesome manner. Nobody knows what will be the effect of this metamorphosis, but if we are allowed to draw conclusions from the past, his future career will prove most transcendently luminous. So much for the present administration.

ROBINSON'S ATHENIUM—A LESSON FOR POLITICIANS.—Uncle Tom's Cabin, a garbled and imperfectly dramatized version of the popular novel of the same name, was presented at this canvass theatre, on Monday evening, to one of the largest crowds ever assembled in this city. The actors were far removed from the hearers, the playing at the best, was anything but satisfactory, the seats were uncomfortable, and the weather intensely hot; but in spite of these drawbacks, the audience sat out the representation with a patience that we tried in vain to imitate. There is something in the piece itself—opening up, as it does, a few of the horrible possibilities of slavery as it exists in the south—that will, in spite of the current prejudices of the day, the appeals of interest and the stirrings of conscience, make itself heard and felt.

We well know what fate such a performance would have met in this city, only a few years past. The stage-fixtures would have been destroyed, the canvas torn to shreds, and the actors themselves hooted out of town—lucky in escaping a coat of tar and feathers at the hands of the incensed crowd who would have followed. From such a retrospect, we turned to a recent scene in a neighboring city: A member of the United States senate, idolized by his friends, the lately acknowledged leader of a great and triumphant party, a man of intellect, of consummate tact and of large public experience,—attempted, at his own home, among his familiar acquaintances, to justify or palliate his agency in destroying "a compact" which had for more than thirty years been embalmed in the hearts of the people as a sacred thing, that slavery might be permitted on the soil which that compact consecrated to freedom,—and he was hooted from the stand and driven to his hotel! Truly, when Uncle Tom's Cabin—the very quintessence of abolitionism—more powerful than a cart load of editorial leaders, or an avalanche of speeches—is listened to and applauded with unmistakable zest and sympathy by those who vote; while a pro-slavery senator can command no response to his cunning sophistry, his protestation of patriotism, and masterly special pleading, except such as is conveyed in jeers and hisses,—truly we have fallen upon strange times! For you oh truckling politician! in the silent tears that rolled down many a manly cheek, when Uncle Tom was hurried from his home to the hard fare and brutal treatment of the far south, there is a lesson that you will do well to study. The rough hands that wiped those tears away can deposit ballots!—*Galena Jeffersonian.*

HOW TO KEEP GATHERED FRUIT AND FLOWERS ALWAYS FRESH.—A friend has just informed us that fruit and flowers may be preserved from decay and fading, by immersing them in a solution of gum arabic in water two or three times, waiting a sufficient time between each immersion to allow to dry. This process covers the surface of the fruit with a thin coating of gum, which is entirely impervious to the air, and thus prevents the decay of the fruit, or the withering of the flower. Our friend has thus preserved which have all the beauty of freshly plucked ones, though they have been separated from the parent stem since June last. To insure success in experiments of this kind, it should be borne in mind that the surface must be completely covered; for if the air only gains an entrance at a pin-hole, the labor will be lost. In preserving specimens of fruit, particular care should be taken to cover the stem end and all with the gum. A good way is to wind a thread of silk about the stem, and then sink it slowly into the solution, which should not be so strong as to leave a particle of the gum undissolved. The gum is so perfectly transparent, that you can with difficulty detect its presence, except by the touch. Here we have another method of fixing the fleeting beauty of nature, and surrounding ourselves with those objects which do most elevate the mind, refine the taste, and purify the heart.—*Country Gentleman.*

SELFISHNESS UNCHRISTIAN.—Live for some purpose in the world. Fill up the measure of life to others. Conduct yourself so that you shall be missed with sorrow when you are gone. Multitudes of our species are living in such a selfish manner that they are not likely to be remembered after their disappearance. They leave behind them scarcely any traces of their existence, but are forgotten almost as though they had never been. They are, while they live, like one pebble unobserved among a million on the shore, and when they die they are like that pebble thrown into the sea, which ruffles the surface, sinks, and is forgotten without being missed from the beach. They are neither regretted by the rich, wanted by the poor, nor celebrated by the learned. Who has been better for their life? whose tears have they dried up? whose miseries have they healed? Whose wants supplied? who would unbear the gate of life to re-admit them to existence, or what face would greet them back to our world with a smile? Wretched, unproductive mode of existence! Selfishness is its own curse: it is a starving vice. The man who does no good, gets none. He is like the desert, neither yielding fruit nor seeing when good cometh; a stunted, dwarfish, miserable shrub.

LAKE SUPERIOR RAILROAD.—A correspondent of the Green Bay Advocate, gives the following account of the only iron track in operation in the Lake Superior country:

The only railroad actually in operation yet, is one from the foot to the head of the Portage, at the "Soo," about one mile. We rode over it one day, and came very near having an accident to record. A switch had been left out of place, but the driver saw the danger in time, and "reversed" the horses; the breeching proved strong enough for the emergency and the cars were stopped in time to prevent their running off the track.

SOLD FOR A SONG.—The two U. S. snag boats, built for the improvement of the Mississippi river only a year ago, at a cost of eighty thousand dollars, have just been sold at auction, in St. Louis, by order of President Pierce, for \$7,925! This is preparatory to abandoning all operations for river and harbor improvements at the west under government auspices. What will not hurrar for "Pierce, democracy, and Nebraska?"

The English are so confident that the proposed attack on Sebastopol will result successfully, that several members of parliament and other dignitaries have determined to make an excursion to the Black Sea to witness that warlikefeat. Some 90,000 troops will invest it by land, and the fortress will be cannonaded from the water by a tremendous fleet. We infer from the immense beleaguering force, and the confident tone of public opinion in Europe, that Sebastopol will fall into the hands of the allied powers, Riga, Reval, Helsingfors, and Kronstadt, ports on the bays of the Baltic, are next on the programme of places, the ownership of which the allies are anxious to transfer.

CHICAGO DUELIST.—A young man named Short, a clerk in a dry goods store in this city, and a young lawyer named Pocock, from Chicago, fought a duel in Kentucky yesterday. Short was fatally wounded in the left breast at the second round. They fought about a young girl to whom Short was engaged.

MEMORY QUICKENED IN DROWNING.—The following circumstance, vouches for as true, is among many instances in which the memory has received a remarkable quickening in apparent drowning. Such facts are incontestable; the solution has never been satisfactorily given:

"Some years since, A held a bond of B for several hundred dollars, having some time to run. At its maturity he found that he had put it away so carefully that he was unable to find it. Every search was fruitless. He only knew that it had not been paid or traded away. In this dilemma he called on B, relating the circumstance of its disappearance, and proposed a receipt as offset to the bond, or rather an indemnifying bond against its future collection, if ever found.

To his great surprise, B not only refused to meet the terms of difficulty, but positively denied owing him anything, and strongly intimated the presence of a fraudulent design on the part of A. Without legal proof, and, therefore, without redress, he had to endure both the loss of his money and the suspicion of dishonorable intention in urging the claim. Several years passed away without any change in the nature of the case, or its facts, as above given, when one afternoon, while bathing in — river, A, either from inability to swim, or cramp, or some other cause, was discovered to be drowning. He had sunk and risen several times, and was floating away under the water, when he was seized and drawn ashore. The usual remedies were applied to resuscitate him, and although there were signs of life, there was no appearance of consciousness. He was taken home in a state of exhaustion, and remained so for some days.

On the first return of strength to walk, he left his bed, went his book case, took out a book, opened it, and handed his long lost bond to a friend who was present. He then informed him that drowning and sinking, as he supposed to rise no more, in a moment, there stood stout distinctly before his hand as a picture, every act of his life, and from the hour of childhood to the hour of sinking beneath the water, and among them the circumstance of putting the bond in the book; the book itself, and the place in which he had put it in the book case. It is needless to say that he recovered his own with us.

There is no doubt that this remarkable quickening memory results from the process which in such cases is going on—the extinguishment of life. It is somewhat analogous to breaking in of the light of another world, which in so many well-attested cases of death-bed scenes, enables the departing spirit, even before it has absolutely left its clay tenement, to behold and exult the glories of the future state. Is it not a fair inference, that when the soul shakes off the cloths and encumbrances of the body, it will possess its capacities for enjoyment of which on earth it was unsuceptible.

As regards the memory, it will be observed by most persons, how readily in life we forget that which we do not desire to remember, and in this way we get rid of much unhappiness. Can we do this after death? This an important and practical question.—*Cist's Ade.*

THE TELEGRAPH IN ENGLAND.—On the 1st of January last the number of miles of telegraph in operation, belonging to the electric telegraph company, was 4409, skirting all the lines of railway in Great Britain, and covering the surface of the Island, with the exception of the highlands of North Wales and Scotland, with a complete network. The number of miles of wire was 24,340. In six months previous, the number of messages sent was 212,440, yielding £56,919, which gave a profit paid in dividends, of seven per cent. per annum. Franked message papers are now used, procurable at any stationer's, which dispenses with the necessity of sending money to the telegraph station; and it is proposed to issue electric stamps, on the same plan with postage stamps. There is also a system of remittance messages in progress of introduction, by means of which money paid in at any of the stations, is paid out at any other station required, and which is expected to supersede the government money office, which works through the slower medium of the post office.—*London Quarterly Review.*

VALUABLE APPLICATION.—From wounds received from old nails, or occasioned by broken glass, peach tree leaves, well steeped and applied to the wound, will give immediate relief. By thickening the liquid from which the leaves have been taken, it will keep moist for hours. In case leaves cannot be obtained, a tea made of the twigs of the peach tree, thickened, will do as well.

The Journal of Commerce says that a pair of approved and economical boilers have been put into the E iron, in place of the recent motor, and that she will soon take her place amongst our best steamers. It would appear from this that the hot air project has been abandoned.

The whigs of the third congressional district of Maine, have unanimously re-nominated E. Wilder Farley, and passed resolutions against the repeal of the Missouri compromise and in favor of continuing the organization of the national whig party.

The whole number of buildings destroyed at Greytown was 175. The computed value of these with their contents, was \$1,500,000. Only eight small buildings were saved from the general ruin. The owners of the property, besides residents of the city, comprised Americans, English, Germans and Italians residing in Grenada and Italy, Nicaraguans, citizens of the interior town of Nicaragua, and several Frenchmen who had valuable property in charge.

The New York Tribune says that Gen. Cazneau has been sent to the Dominican part of Hayti to negotiate a treaty between this country and the Dominican republic, and to endeavor if possible to secure a port on the bay of Samana to serve as a naval station. It is conjectured that annexation lies behind this negotiation, and then the conquest of Hayti and the subjugation of the negroes.

The sale of the reserved seats for the opening concert of Grisi and Mario took place at Castle Garden on Friday afternoon. At first the bidding was rather brisk, the first ticket being knocked down to a sort of Mrs. Harris for \$250. She is said to be the foolish old English woman who fancies herself in love with Mario, and follows him all over, much to his annoyance, as that of his singing companion. After the first ticket was sold, the bids rapidly declined, until they reached the moderate premium of 50 cents, at which rate a fair number were disposed of.

HARD CEMENT FOR SEAMS.—A very excellent cement for seams in the roofs of houses, or for any other exposed places, is made with white lead, dry white sand, and as much oil as will make it into the consistency of putty. This cement gets as hard as any stone in the course of a few weeks. The lead forms a kind of flux with the sand; it is excellent for filling up cracks in exposed parts of brick buildings; it is also a good cement for putting up the base of chimneys, where they project through the roofs of shingled houses. We have made this cement and tried it, and speak about it from experience only, for we have no knowledge of its ever having been described before.—*Germantown Tel.*

THE CITY OF LOUISVILLE BROUGHT UP ON A WRIT ON QUO WARRANTO.—The city of Louisville issued thirty years bonds sometime since, amounting to two hundred thousand dollars, for the purchase of the wharf, and one hundred thousand dollars for a basin in the lower part of the city. A writ of quo warranto was issued out in the name of the Commonwealth against the city of Louisville in said county. And it is further ordered that notice thereof be given to all persons interested, by publishing a copy of said order for three successive weeks prior to said day of examination in the Janesville Gazette, a weekly newspaper printed and published in the city of Janesville aforesaid.—*Dated, September 1st, 1854.* MOSES S. PRICHARD, County Judge.

STRAY MARE.—Taken up by the subscriber, in the town of Fulton, Rock county, about the 5th of July last, a Brown MARE, one white hind foot, a bone spavin on the other, and about ten years old. The owner can have her by proving property and paying charges.

MOSES S. PRICHARD,
County Judge.

IN PROBATE, COUNTY COURT, FOR ROCK COUNTY. In matter of the Estate of Aaron Jerome, deceased.

ON reading and filing the petition of Louis J. Jerome, administrator of the above named estate, representing, among other things, that he has fully administered said estate, and praying that a time and place may be fixed for examining and settling his account, it is ordered, that said account be examined by the judge of this court on Monday, the 4th day of September next at ten o'clock in the forenoon, at the office of said judge in the city of Janesville, in said county and there to show cause, if any there shall be, why a license should not be granted for the sale of said real estate according to the prayer of said petition. And it is further ordered, that a copy of this order shall be published for three successive weeks, prior to said day of hearing in the Janesville Gazette, a weekly newspaper printed and published in the city of Janesville aforesaid. Dated, September

JANESVILLE :: WISCONSIN.

TUESDAY MORNING, SEPT. 12, 1854.

ROCK COUNTY REPUBLICAN CONVENTION.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Republican Platform" adopted at Madison on the 18th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on Tuesday the 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. M., to nominate a county ticket.

The town and wards will be entitled to represent in the county convention as follows:—to wit:

Axon,	8	Janesville 1st ward 4
Beloit,	10	2d ward 4
Bradford,	4	3d ward 2
Center,	8	4th ward 5
Clinton,	5	Milwaukee 3
Elkhorn,	4	Madison 5

La Prairie,	5	Rock 4
Janesville, town,	8	Spring Valley 4
Turtle,	5	Union 5

L. P. HARVEY, J. H. BEEBE,
JOHN HOWE, B. G. COLLEY,
G. H. WILLISTON, A. HASKINS,
PETER SCHMITT, J. DAWSON,
E. VINCENT, County Committee.

17th SENATORIAL DISTRICT CONVENTION.

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention—Second District.

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Axe, La Crosse, Monroe, Polk, Pierce, Trempe a' leau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglass and La Pointe, who are opposed to the Nebraska iniquity, and in favor of the principles announced in the "REPUBLICAN" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 13th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committee,

W. M. A. WHITE, Chairman.

MADISON, August 14.

THE COUNTY FAIR.—The prospects for a large turn-out on this interesting occasion; for a full display of articles, and for a good time generally, are encouraging. The late rains have laid the dust and left the roads in good condition, besides cooling off the atmosphere to a more agreeable temperature. We shall be disappointed, if there is not a much larger attendance than at any preceding fair.

THE WISCONSIN FARMER.—The September number of this useful periodical has been issued and contains the usual amount of valuable agricultural, horticultural and mechanical information. The only fault we have ever been inclined to find with "Farmer" is the ruinously low price at which it is afforded. It is too cheap by one half. No publisher ought to endure the toil necessary to get it out, and no farmer ought to ask for it, for less than one dollar per year.

It has passed into an axiom, that publishers of papers are the most poorly paid of any class of business men, considering the amount of labor and responsibility devolving upon them.—Men of abundant means, who are ready to lavish money upon a thousand useless objects, will higgle an hour to reduce the price of a newspaper a few cents, and then perhaps when the minimum is reached, wish to pay in something besides money, always holding their own articles at the very highest market prices. The prices of labor and of paper are constantly advancing, and yet a corresponding advance upon the subscription price would probably be the means of a diminution of the already too slender support of the newspaper.

It is a grievance springing from several causes, perhaps irremediable, the principal of which are, a want of proper appreciation by the public of the value and usefulness of the newspaper; the disposition of young adventurers to multiply the number of presses, thus dividing the patronage, and the ruinous competition of cheap city papers. Through these causes, papers that deserve to be handsomely supported and ought to become permanently established, drag out a precarious existence, meeting and surmounting discouragement and embarrassment at every step, and only kept up by the delusive hope of a better time coming.

SYRACUSE, Sept. 6.
CONVENTION OF THE "SOIORS" AT SYRACUSE.—The democratic soft shell convention met here today. There is considerable excitement. The Nebraska men held a caucus, headed by Ryders, and resolved to withdraw from the convention if anti-Nebraska resolutions were passed.

A third and still larger party than any which has preceded it, will be ready to leave Massachusetts for Kansas on the 25th instant. The Weston braggarts are likely to have their hands full if they undertake to "remove" all the free negroes who have already gone or are preparing to go, to that territory.

CHICAGO DUELIST.—A young man named Short, a clerk in a dry good store in this city, and a young lawyer named Peacock, from Chicago, fought a duel in the city yesterday. Short was fatally wounded in the left breast at the second round. They fought about a young girl to whom Short was engaged.

THE GOVERNOR OF NEBRASKA.—Mr. Burt is a South Carolinian. But the Maysville, Ky., Express, a democratic paper, owned and edited by a democratic member of congress, takes the "starch" out of Governor Burt in the following manner. Of course these locofocos ought to know one another:

When *His Executive Highness* offered to Gen. W. O. Butler the governorship of the territory of Nebraska, a spirit of shame went creeping through the democratic ranks of the west and south, and a deep blush suffused the cheeks of the democracy throughout the union. The insult was felt and acknowledged by the whole country, and some did not hesitate to cry out against the foul blot made by the president and his communists. But now, when a deeper wrong and more palpable insult has been offered, they are all silent and seem to have forgotten the stigma which is resting upon them, or perhaps they do not know who has condonced to accept the office so justly refused by Gen. Butler.

"His excellency, Gov. Francis Burt," late third auditor and first overseer of the treasury under James Guthrie, is the individual, and if the cabinet had raked creation with a fine toothed comb, they could not have found another such man, or have more effectually completed the insult to one so much superior in honesty and worth. Mr. Burt never having participated to any extent in politics, save to change his coat for the occasion, and be "pig or puppy" as the case might require, has only been observed in his social and official capacity as a tool to the secretary of the treasury, and a spy in particular over the "bands," as he is pleased to term the clerical contractors and employers of that department, and all those who have been connected with him in cases where demagogism, pomposity, and codish aristocracy might be manifested, have never failed to turn from him with contempt and disgust. "In blissful ignorance" of law, equity, or justice, his arbitrary power was exercised in a most ludicrous and sometimes in a most troublesome manner. Nobody knows what will be the effect of this metamorphosis, but if we are allowed to draw conclusions from the past, his future career will prove most transcendently luminous. So much for the present administration.

ROBINSON'S ATHENIEN.—**A LESSON FOR POLITICIANS.**—Uncle Tom's Cabin, a garbled and imperfectly dramatized version of the popular novel of the same name, was presented at this canvas theatre, on Monday evening, to one of the largest crowds ever assembled in this city. The actors were far removed from the hearers, the playing at the best, was anything but satisfactory, the seats were uncomfortable, and the weather intensely hot; but in spite of these drawbacks, the audience sat out the representation with a patience that was tried in vain to irritate. There is something in the piece itself—opening up, as it does, a few of the horrible possibilities of slavery as it exists in the south—that will, in spite of the current prejudices of the day, the apocals of interest and the stiflings of conscience, make itself heard and felt.

We well know what fate such a performance would have met in this city, only a few years past. The stage-fixtures would have been destroyed, the canvas torn to shreds, and the actors themselves hooted out of town—lucky in escaping a coat of tar and feathers, and the incensed crowd who would have followed. From such retrospect, we turned to a recent scene in a neighboring city: A member of the United States senate, idolized by his friends, the lately acknowledged leader of a great and triumphant party, a man of intellect, of consummate tact and of large public experience, attempted, at his own home, among his familiar acquaintances, to justify or palliate his agency in destroying "a compact" which had for more than thirty years been embalmed in the hearts of the people as a sacred thing; that slavery might be permitted on the soil which that compact consecrated to freedom,—and he was hoisted to the state at the asylum.

As regards the memory, it will be observed by most persons, how readily in life we forget that which we do not desire to remember, and in this way we get rid of much unhappiness.—Can we do this after death? This is an important and practical question."—*Cass's Advs.*

THE TELEGRAPH IN ENGLAND.—On the 1st of January last the number of miles of telegraph in operation, belonging to the electric telegraph company, was 4400, skirting all the lines of railway in Great Britain, and covering the surface of the Island, with the exception of the highlands of North Wales and Scotland, with a complete net-work. The number of miles of wire was 24,340. In six months previous, the number of messages sent was 212,440, yielding £56,819, which gave a profit paid in dividends, of seven per cent. per annum. Franked message papers are now used, procurable at any stationer's, which dispenses with the necessity of sending money to the telegraph station; and it is proposed to issue electric stamps, on the same plan with postage stamps. There is also a system of remittance messages in progress of introduction, by means of which money paid in at any of the stations, is paid out at any other station required, and which is expected to supersede the government money office, which works through the slower medium of the post office.—*London Quarterly Review.*

SELFISHNESS UNCHRISTIAN.—Live for some purpose in the world. Fill up the measure of duty to others. Conduct yourself so that you shall be missed with sorrow when you are gone. Multitudes of our species are living in such selfish manner that they are not likely to be remembered after their disappearance. They leave behind them scarcely any traces of their existence, but are forgotten almost as though they had never been. They are, while they live, like a pebble unobserved among a million on the shore, and when they die they are like that same pebble thrown into the sea, which ruffles the surface, sinks, and is forgotten without being missed from the beach. They are neither regretted by the rich, wanted by the poor, nor celebrated by the learned. Who has been better for their life? whose tears have they dried up? whose miseries have they healed? Who wants supplied? who would unbar the gates of life to re-admit them to existence, or what face would greet them back to our world with a smile? Wretched, unproductive mode of existence! Selfishness is its own curse: it is a starving vice. The man who does no good, gets none. He is like the desert, neither yielding fruit nor seeing when good comes; a stunted, dwarfish, miserable shrub.

LAKE SUPERIOR RAILROAD.—A correspondent of the Green Bay Advocate, gives the following account of the only iron track in operation in the Lake Superior country:

The only railroad actually in operation yet, is one from the foot to the head of the Portage, at the "Soo," about one mile. We rode over it one day, and came very near having an accident to record. A switch had been left out of place, but the driver saw the danger in time, and "reversed" the horses; the breeching proved strong enough for the emergency and the cars were stopped in time to prevent their running off the track.

NEWSPAPER PUBLICATION.—The Cleveland Plaindealer says in relation to the general complaints of a want of fair remuneration for the capital and labor of publishers:

As the Tribune has done, so will a large number of publishers have to do. The price of paper and labor have advanced enormously.—Advertising patronage too, the only real dependence for profit in a daily paper, has fallen off so much, owing to the depressed condition of the country, by the failure of the crops, that a general decrease in the size of dailies must take place, or the papers will fail. Even this in large number of cases will not arrest suspension. It is our opinion that at least three-fourths of the newspapers in the country are not making a dollar, and we predict that one quarter of them will fail before a year has gone round. We think every publisher who looks rightly at the matter will be of our opinion. Old established papers will probably live through to better times, but they will make but little money, and generally they will be gratified if they can make both ends meet.

CHICAGO DUELIST.—A young man named Short, a clerk in a dry good store in this city, and a young lawyer named Peacock, from Chicago, fought a duel in the city yesterday. Short was fatally wounded in the left breast at the second round. They fought about a young girl to whom Short was engaged.

MEMORY QUICKENED IN DROWNING.—The following circumstance, vouches for as true, is among many instances in which the memory has received a remarkable quickening in apparent drowning. Such facts are incontestable; the solution has never been satisfactorily given:

"Some years since, A held a bond of B for several hundred dollars, having some time to run. At its maturity he found that he had put it away so carefully that he was unable to find it. Every search was fruitless. He only knew that it had not been paid or traded away. In this dilemma he called on B, relating the circumstance of its disappearance, and proposed to except as offset to the bond, or rather an indemnifying bond against its future collection, if ever found.

To his great surprise, B not only refused to meet the terms of difficulty, but positively denied owing him anything, and strongly intimated the presence of a fraudulent design on the part of A. Without legal proof, and, therefore, without redress, he had to endure both the loss of his money and the suspicion of dishonorable intention in urging the claim. Several years passed away without any change in the nature of the case, or its facts, as above given, when one afternoon, while bathing in— river, A, either from inability to swim, or cramp, or some other cause, was discovered to be drowning.

"I fear," said a country curate to his flock, "when I explained to you in my last sermon that philanthropy was a love of your species, you must have understood me to say species, which may account for the smallness of the collection. You will prove I hope, by your present contribution, that you are no longer laboring under the same mistake."

EAT PLANTS.—Peel the fruit and cut them into thin slices; boil in salt and water, till quite tender; drain off the water and add sweet milk; crumb in toasted bread, and while simmering gently, add butter, pepper, &c., and break in three or four fresh eggs; take up before the eggs cook hard, and you will have a dish almost equal to stewed oysters. To fry egg plants they should be peeled, cut into thin slices, parboiled, then dipped in batter, which has been highly seasoned, and fried in butter or lard; either way they are delicious.

GALLANTLY.—The New York Mirror says: "A lady having lost a valuable bracelet in deep water, at Nahant a few days since, a gentleman from this city plunged in the next morning about sunrise, and after diving for it some fifteen minutes, recovered the treasure, and at the break-table quietly placed it on the lady's arm."

Private accounts from Maine state that in the vicinity of some of the burning forests, quite a number of persons, chiefly females, have become insane, in consequence of excitement, the result of a belief that in the general conflagration the woods there is a sign of the speedy ending of the world in accordance with the prediction of the Millerites. Some of them have earth it was unsusceptible.

As regards the memory, it will be observed

by most persons, how readily in life we forget that which we do not desire to remember, and in this way we get rid of much unhappiness.—Can we do this after death? This is an important and practical question."—*Cass's Advs.*

TO LET.—The N. Y. Herald gives a list of stores in several business streets, by which it appears that out of 1372 there are 342 unoccupied. It would seem that high rents have much to do with this matter.

At a special election in the 1st ward, in Washington city, the anti-Know Nothing candidate was elected by seven majority.

POSTAL EXPENSES.—The yearly cost of transporting the mails is \$5,200,000; postmaster's fees, \$2,000,000. The whole expense of the department for the next fiscal year is estimated at \$8,319,000; and an anticipated deficiency of \$2,44,454 is provided for.

VALUABLE APPLICATION.—From wounds received from old nails, or occasioned by broken glass, peach tree leaves, well steeped and applied to the wound, will give immediate relief. By thickening the liquid from which the leaves have been taken, it will keep moist for hours. In case leaves cannot be obtained, a tea made of the twigs of the peach tree, thickened, will do as well.

The Journal of Commerce says that a pair of approved and economical boilers have been put into the E. lesson, in place of the recent motor, and that she will soon take her place amongst our best steamers. It would appear from this that the hot air project has been abandoned.

The whigs of the third congressional district of Maine, have unanimously re-nominated E. Wilder Farley, and passed resolutions against the repeal of the Missouri compromise and in favor of continuing the organization of the national whig party.

The whole number of buildings destroyed at Greycourt was 175. The computed value of these with their contents, was \$1,500,000. Only eight small buildings were saved from the general ruin. The owners of the property, besides residents of the city, comprised Americans, English, Germans and Italians residing in Grenada and Italy. Nicaraguans, citizens of the interior town of Nicaragua, and several Frenchmen who had valuable property in charge.

The New York Tribune says that Gen. Cazier has been sent to the Dominican part of Hayti to negotiate a treaty between this country and the Dominican republic, and to endeavor if possible to secure a port on the bay of Samana to be used as a naval station. It is conjectured that annexation lies behind this negotiation, and then the conquest of Hayti and the subjugation of the negroes.

The sale of the reserved seats for the opening concert of Grisi and Mario took place at Castle Garden on Friday afternoon. At first the bidding was rather brisk, the first ticket being knocked down to a sort of Mrs. Harris for \$250. She is said to be the foolish old English woman, who fancied herself in love with Mario, and follows him all over, much to his annoyance, as that of his singing companion. After the first ticket was sold, the bids rapidly declined, until they reached the moderate premium of 50 cents, at which rate a fair number were disposed of.

HARD CEMENT FOR SEAMS.—A very excellent cement for seams in the roofs of houses, or for any other exposed places, is made with white lead, dry white sand, and as much oil as will make it into the consistency of putty. This cement gets as hard as any stone in the course of a few weeks. The lead forms a kind of flux with the sand; it is excellent for filling up cracks in exposed parts of brick buildings; it is also a good cement for putting up the base of chimneys, where they project through the roofs of shingled houses. We have made this cement and tried it, and speak about it from experience only, for we have no knowledge of its ever having been described before.—*Germantown Tel.*

THE CITY OF LOUISVILLE BROUGHT UP ON A WRIT ON QUO WARRANTO.—The city of Louisville issued thirty years bonds sometime since, amounting to two hundred thousand dollars, for the purchase of the wharf, and one hundred thousand dollars for a basin in the lower part of the city. A writ of quo warranto was issued out in the name of the Commonwealth against the city of Louisville, under which the city was required to show her authority for issuing such bonds as she had issued under an ordinance.

Judge Bullock, of Louisville, before whom the writ was returned, decided after hearing the argument, that Louisville had transcended its powers in issuing the bonds, and that the ordinance authorizing them was void.

THE ENGLISH ARE SO CONFIDENT that the proposed attack on Sebastopol will result successfully, that several members of parliament and other dignitaries have determined to make an excursion to the Black Sea to witness that warlike fleet. Some 90,000 troops will invest it by land, and the fortress will be canonaded from the water by a tremendous fleet. We infer from the immense beleaguering force, and the confident tone of public opinion in Europe, that Sebastopol will fall into the hands of the allied powers. Riga, Revel, Helsingfors, and Kronstadt, ports on the bays of the Baltic, are next on the programme of places, the ownership of which the allies are anxious to transfer.

THE GREAT SINGERS.—Grisi and Mario made their first appearance in America at Castle Garden, New York, on Monday evening, in the opera *Lucrezia Borgia*. The Evening Post intimates that expectation was too highly raised, and a feeling of disappointment took possession of the house, such as the visitor feels at first before Niagara. As much curiosity was shown to see the lady who bought the first ticket as to Grisi and Mario themselves. The story of their insane attachment is a precious morsel to the scandal-mongers of New York. Her name is not Miss Coutts, and she is no connexion of Coutts family.—*Wisconsin*.

To DRIVE AWAY RATS.—A friend has just informed the Rural New Yorker of a plan he adopted to get rid of rats. His premises swarmed with them. He took small fish hook, attached to a fine wire and suspended on it a piece of cheese, letting it hang about a

17th SENATORIAL DISTRICT CONVENTION.

At the same time and place above designated in the respective towns and wards for meeting, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention—Second District.

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Ax, La Crosse, Monroe, Polk, Pierce, Trempealeau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglas and La Pointe, who are opposed to the Nebraska Infidelity, and in favor of the principles announced in the "Republican" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 13th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committee.

THE COUNTY FAIR.—The prospects for a large turn-out on this interesting occasion; for a full display of articles, and for a good time generally, are encouraging. The late rains have laid the dust and left the roads in good condition, besides cooling off the atmosphere to a more agreeable temperature. We shall be disappointed, if there is not a much larger attendance than at any preceding fair.

THE WISCONSIN FARMER.—The September number of this useful periodical has been issued and contains the usual amount of valuable agricultural, horticultural and mechanical information. The only fault we have ever been inclined to find with "Farmer" is the ruinously low price at which it is afforded. It is too cheap by one half. No publisher ought to endure the toil necessary to getting it out, and no farmer ought to ask for it, for less than one dollar per year.

It has passed into an axiom, that publishers of papers are the most poorly paid of any class of business men, considering the amount of labor and responsibility devolving upon them. Men of abundant means, who are ready to lavish money upon a thousand useless objects, will haggle an hour to reduce the price of newspaper a few cents, and then perhaps when the minimum is reached, wish to pay in something besides money, always holding their own articles at the very highest market prices. The prices of labor and of paper are constantly advancing, and yet a corresponding advance upon the subscription price would probably be the means of a diminution of the already too slender support of the newspaper.

It is a grievance springing from several causes, perhaps irremediable, the principal of which are, a want of proper appreciation by the public of the value and usefulness of the newspaper; the disposition of young adventurers to multiply the number of presses, thus dividing the patronage, and the ruinous competition of cheap city papers. Through these causes, papers that deserve to be handsomely supported and ought to become permanently established, drag out a precarious existence, meeting and surmounting discouragement and embarrassment at every step, and only kept up by the delusive hope of a better time coming.

Syracuse, Sept. 6.
CONVENTION OF THE "SURT" AT SYRACUSE.—The democratic soft shell convention met here to-day. There is considerable excitement. The Nebraska men held a caucus, headed by Rynders, and resolved to withdraw from the convention if anti-Nebraska resolutions were passed.

A third and still larger party than any which has preceded it, will be ready to leave Massachusetts for Kansas on the 20th instant. The Weston biggarts are likely to have their hands full if they undertake to "remove" all the free-men who have already gone or are preparing to go, to that territory.

Chicago DUELIST.—A young man named Short, a clerk in a dry goods store in this city, and a young lawyer named Poacock, from Chicago, fought a duel in Kentucky yesterday. Short was slightly wounded in the left breast at the second round. They fought about a young girl to whom Short was engaged.

THE GOVERNOR OF NEBRASKA.—Mr. Burt is a South Carolinian. But the Maysville, Ky., Express, a democratic paper, owned and edited by a democratic member of congress, takes the "starch" out of Governor Burt in the following manner. Of course these locofocos ought to know one another:

When *His Executive Highness* offered to Gen. W. O. Butler the governorship of the territory of Nebraska, a spirit of shame went creeping through the democratic ranks of the west and south, and a deep blush suffused the cheeks of the democracy throughout the union. The insult was felt and acknowledged by the whole country, and some did not hesitate to cry out against the foul blot made by the president and his communists. But now, when a deeper wrong and more palpable insult has been offered, they are all silent and seem to have forgotten the stigma which is resting upon them, or perhaps they do not know who has descended to accept the office so justly refused by Gen. Butler.

"Hi! excellency, Gov. Francis Burt," late third auditor and first overseer of the treasury under James Guthrie, is the individual, and if the cabinet had taken creation with a fine toothed comb, they could not have found another such man, or have more effectually completed the insult to one so much superior in honesty and worth. Mr. Burt never having participated to any extent in politics, save to change his coat for the occasion, and be "pig or puppy" as the case might require, has only been observed in his social and official capacity as a tool to the secretary of the treasury, and a spy in particular over the "hands," as he is pleased to term the clerical contractors and employers of that department, and all those who have been connected with him in cases where demagogism, pomposity, and codfish aristocracy might be manifested, have never failed to turn from him with contempt and disgust. "In blissful ignorance" of law, equity, or justice, his arbitrary power was exercised in a most ludicrous, and sometimes in a most troublesome manner. No body knows what will be the effect of this metamorphosis, but if we are allowed to draw conclusions from the past, his future career will prove most transcendently luminous. So much for the present administration.

RONINSON'S ATHENIUM.—A LESSON FOR POLITICIANS.—Uncle Tom's Cabin, a garbled and imperfectly dramatized version of the popular novel of the same name, was presented at this canvas theatre, on Monday evening, to one of the largest crowds ever assembled in this city. The actors were far removed from the hearers, the playing at the best, was anything but satisfactory, the seats were uncomfortable, and the weather intensely hot; but in spite of these drawbacks, the audience sat out the representation with a patience that we tried in vain to imitate. There is something in the piece itself—opening up, as it does, a few of the horrible possibilities of slavery as it exists in the south—that will, in spite of the current prejudices of the day, the appeals of interest and the stirrings of conscience, make itself heard and felt.

We well know what fate such a performance would have met in this city, only a few years past. The stage-fixtures would have been destroyed, the canvas torn to shreds, and the actors themselves hooted out of town—lucky in escaping a coat of tar and feathers at the hand of the incensed crowd who would have followed. From such a retrospect, we turned to a recent scene in a neighboring city: A member of the United States senate, idolized by his friends, the lately acknowledged leader of a great and triumphant party, a man of intellect, of consummate tact and of large public experience,—attempted, at his own home, among his familiar acquaintances, to justify or palliate his agency in destroying "a justif" which had for more than thirty years been embalmed in the hearts of the people as a sacred thing," that slavery might be permitted on the soil which that compact consecrated to freedom,—and he was hooted from the stand and driven to his hotel!—Truly, when Uncle Tom's Cabin—the very quintessence of abolitionism—more powerful than a cart load of editorial leaders, or an avalanche of speeches—is listened to and applauded with unmistakable zest and sympathy by those who vote; while a pro-slavery senator can command no response to his cunning sophistry, his protestation of patriotism, and masterly special pleading, except such as is conveyed in jeers and hisses,—truly we have fallen upon strange times! For you, oh truckling politician! in the silent tears that rolled down many a manly cheek, when Uncle Tom was buried from his home to the hard fare and brutal treatment of the far south, there is a lesson that you will do well to study. The rough hands that wiped those tears away can deposite ballots!—*Galena Jeffersonian.*

HOW TO KEEP GATHERED FRUIT AND FLOWERS ALWAYS FRESH.—A friend has just informed us that fruit and flowers may be preserved from decay and fading, by immersing them in a solution of gum arabic in water two or three times, waiting a sufficient time between each immersion to allow to dry. This process covers the surface of the fruit with a thin coating of gum, which is entirely impervious to the air, and thus prevents the decay of the fruit, or the withering of the flower. Our friend has roses thus preserved which have all the beauty of freshly plucked ones, though they have been separated from the parent stem since June last. To insure success in experiments of this kind, it should be borne in mind that the surface must be completely covered; for if the air only gains an entrance at a pin-hole, the labor will be lost. In preserving specimens of fruit, particular care should be taken to cover the stem end and all with the gum. A good way is to wind a thread of silk about the stem, and then sink it slowly into the solution, which should not be so strong as to leave a particle of the gum undissolved. The gum is so perfectly transparent, that you can with difficulty detect its presence, except by the touch. Here we have another method of fixing the fleeting beauty of nature, and surrounding ourselves with those objects which do most elevate the mind, refine the taste, and purify the heart.—*Country Gentleman.*

NEWSPAPER PUBLICATION.—The Cleveland Plaindealer says in relation to the general complaint of a want of a fair remuneration for the capital and labor of publishers:

As the Tribune has done, so will a large number of publishers have to do. The price of paper and labor have advanced enormously.—Advertising patronage too, the only real dependence for profit in a daily paper, has fallen off so much, owing to the depressed condition of the country, by the failure of the crops, that a general decrease in the size of dailies must take place, or the papers will fail. Even this in a large number of cases will not arrest suspension. It is our opinion that at least three-fourths of the newspapers in the country are not making a dollar, and we predict that one quarter of them will fail before the year has gone round. We think every publisher who looks rightly at the matter will be of our opinion. Old established papers will probably live through to better times, but they will make but little money, and generally they will be gratified if they can make both ends meet.

Chicago DUELIST.—A young man named Short, a clerk in a dry goods store in this city, and a young lawyer named Poacock, from Chicago, fought a duel in Kentucky yesterday. Short was slightly wounded in the left breast at the second round. They fought about a young girl to whom Short was engaged.

MEMORY QUICKENED IN DROWNING.—The following circumstance, vouches for as true, is among many instances in which the memory has received a remarkable quickening in apparent drowning. Such facts are incontestable; the solution has never been satisfactorily given:

"Some years since, A held a bout of B for several hundred dollars, having some time to run. At its maturity he found that he had put it away so carefully that he was unable to find it. Every search was fruitless. He only knew that it had not been paid or traded away. In this dilemma he called on B, relating the circumstance of its disappearance, and proposed a receipt as offset to the bond, or rather an indemnifying bond against its future collection, if ever

his great surprise, B not only refused to meet the terms of difficulty, but positively denied owing him anything, and strongly intimated the presence of a fraudulent design on the part of A. Without legal proof, and, therefore,

"Hi! excellency, Gov. Francis Burt," late third

auditor and first overseer of the treasury under James Guthrie, is the individual, and if the cabinet had taken creation with a fine toothed comb, they could not have found another such man, or have more effectually completed the insult to one so much superior in honesty and worth. Mr. Burt never having participated to any extent in politics, save to change his coat for the occasion, and be "pig or puppy" as the case might require, has only been observed in his social and official capacity as a tool to the secretary of the treasury, and a spy in particular over the "hands," as he is pleased to term the clerical contractors and employers of that department, and all those who have been connected with him in cases where demagogism, pomposity, and codfish aristocracy might be manifested, have never failed to turn from him with contempt and disgust. "In blissful ignorance" of law, equity, or justice, his arbitrary power was exercised in a most ludicrous, and sometimes in a most troublesome manner. No body knows what will be the effect of this metamorphosis, but if we are allowed to draw conclusions from the past, his future career will prove most transcendently luminous. So much for the present administration.

In Memphis, Tennessee, the man who gets drunk is not fined, nor confined, but set to work to cleanse the streets for so many days, more or less, according to the grade of his intoxication.

"I fear," said a country curate to his flock, "when I explained to you in my last sermon that philanthropy was a love of your species, you must have understood me to say species, which may account for the smallness of the collection. You will prove I hope, by your present contribution, that you are no longer laboring under the same mistake."

ED. PLANTS.—Peel the fruit and cut them into thin slices; boil in salt and water, till quite tender; drain off the water and add sweet milk; crumb in toasted bread, and while simmering gently, add butter, pepper, &c., and break in three or four fresh eggs; take up before the eggs cook hard, and you will have a dish almost equal to stewed oysters. To fry egg plants they should be peeled, cut into thin slices, parboiled, then dipped in batter, which has been highly seasoned, and fried in butter or lard; either way they are delicious.

GALLANTLY.—The New York Mirror says: "A lady having lost a valuable bracelet in deep water, at Nahant a few days since, a gentleman from this city plunged in the next morning about sunrise, and after diving for it some fifty feet, recovered the treasure, and at the break-fest table quietly placed it on the lady's arm."

Private accounts from Maine state that in the vicinity of some of the burning forests, quite a number of persons, chiefly females, have become insane, in consequence of excitement, the result of a belief that in the general conflagration in the woods there is a sign of the speedy end of the world in accordance with the prediction of the Millerites. Some of them have been taken to the state asylum.

As regards the memory, it will be observed by most persons, how readily in life we forget that which we do not desire to remember, and in this way we get rid of much unhappiness. Can we do this after death? This is an important and practical question."—*Cist's Adv.*

THE TELEGRAPH IN ENGLAND.—On the 1st of January last the number of miles of telegraph in operation, belonging to the electric telegraph company, was 4,100, stretching all the lines of railway in Great Britain, and covering the surface of the island, with the exception of the highlands of North Wales and Scotland, with a complete net-work. The number of miles of wire was 24,340. In six months previous, the number of messages sent was 212,440, yielding £56,910, which gave a profit paid in dividends, of seven per cent. per annum. Franked message papers are now used, procurable at any stationer's, which dispenses with the necessity of sending money to the telegraph station; and it is proposed to issue electric stamps, on the same plan with postage stamps. There is also a system of remittance messages in progress of introduction, by means of which money paid in at any of the stations, is paid out at any other station required, and which is expected to supersede the government money office, which works through the slower medium of the post office.

VALUABLE APPLICATION.—From wounds received from old nails, or occasioned by broken glass, peach tree leaves, well steeped and applied to the wound, will give immediate relief. By thickening the liquid from which the leaves have been taken, it will keep moist for hours. In case leaves cannot be obtained, a tea made of the twigs of the peach tree, thickened, will do well.

The Journal of Commerce says that a pair of approved and economical boilers have been put into the E lesson, in place of the recent motor, and that she will soon take her place amongst our best steamers. It would appear from this that the hot air project has been abandoned.

The whigs of the third congressional district of Maine, have unanimously re-nominated E. Wilder Farley, and passed resolutions against the repeal of the Missouri compromise and in favor of continuing the organization of the national whig party.

The whole number of buildings destroyed at Greytown was 175. The computed value of these with their contents, was \$1,500,000. Only eight small buildings were saved from the general ruin. The owners of the property, besides residents of the city, comprised Americans, English, Germans and Italians residing in Grenada and Italy, Nicaraguans, citizens of the interior town of Nicaragua, and several Frenchmen who had valuable property in charge.

The New York Tribune says that Gen. Cazneau has been sent to the Dominican port of Hayti to negotiate a treaty between this country and the Dominican republic, and to endeavor if possible to secure a port on the bay of Samana to serve as a naval station. It is conjectured that annexation lies behind this negotiation, and then the conquest of Hayti and the subjugation of the negroes.

The sale of the reserved seats for the opening concert of Grisi and Mario took place at Castle Garden on Friday afternoon. At first the bidding was rather brisk, the first ticket being knocked down to a sort of Mrs. Harris for \$250. She is said to be the foolish old English woman who fancied herself in love with Mario, and follows him all over, much to his annoyance, as that of his singing companion. After the first ticket was sold, the bids rapidly declined, until they reached the moderate premium of 50 cents, at which rate a fair number were disposed of.

HARD CEMENT FOR SEAMS.—A very excellent cement for seams in the roofs of houses, or for any other exposed places, is made with white lead, dry white sand, and as much oil as will make it into the consistency of putty. This cement gets as hard as any stone in the course of a few weeks. The lead forms a kind of flux with the sand; it is excellent for filling up cracks in exposed parts of brick buildings; it is also a good cement for putting up the base of chimneys, where they project through the roofs of shingled houses. We have made this cement and tried it, and speak about it from experience only, for we have no knowledge of its having ever been described before.

THE CITY OF LOUISVILLE BROUGHT UP ON A WRIT OF QUO Warrant.—The city of Louisville issued thirty years bonds sometime since, amounting to two hundred thousand dollars, for the purchase of the wharf, and one hundred thousand dollars for a basin in the lower part of the city. A writ of quo warranto was issued out in the name of the Commonwealth against the city of Louisville, under which the city was required to show her authority for issuing such bonds as she had issued under an ordinance.

Judge Bullock, of Louisville, before whom the writ was returned, decided after hearing the argument, that Louisville had transcended its powers in issuing the bonds, and that the ordinance authorizing them was void.

The English are so confident that the proposed attack on Sebastopol will result successfully, that several members of parliament and other dignitaries have determined to make an excursion to the Black Sea to witness that warlike feat. Some 90,000 troops will invest it by land, and the fortress will be bombarded from the water by a tremendous fleet. We infer from the immense besieging force, and the confident tone of public opinion in Europe, that Sebastopol will fall into the hands of the allied powers. Riga, Revel, Helsingfors, and Kronstadt, port on the bays of the Baltic, are next on the programme of places, the ownership of which the allies are anxious to transfer.

THE GREAT SINGERS.—Grisi and Mario made their first appearance in America at Castle Garden, New York, on Monday evening, in the opera *Lucrezia Borgia*. The Evening Post intimates that expectation was too highly raised, and a feeling of disappointment took possession of the house, such as the visitor feels at first before Niagara. An unusual curiosity was shown to see Grisi and Maria themselves. The story of her insane attachment is a precious morsel to the government officers' *accomplices* for not taking steps to break it up."

There is no room for doubt on this question.

And such is the profit of the infamous traffic, and the seeming necessities of the slave propaganda, that an attempt was openly made in the U. S. Senate to throw open the trade to all who might choose to engage in it, under the protection of the American flag. We certainly are approaching a crisis on the slavery question and must be prepared to meet it.—*Rock. Dem.*

DRIVE AWAY RATS.—A friend has just informed the Rural New Yorker of a plan he adopted to get rid of rats. His premises swarmed with them. He took a small fish hook, attached to a fine wire and suspended on it a piece of cheese, letting it hang about a foot from the ground. One of the rats leaped at it, and was hooked and set

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Republican Platform" adopted at Madison on the 18th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on Tuesday the 10th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. M., to nominate a county ticket.

The towns and wards will be entitled to representation in the county convention as follows:—to wit:

17th SENATORIAL DISTRICT CONVENTION.

At the same time and place above designated in the respective towns and wards for meeting, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention—Second District.

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Ax, La Crosse, Monroe, Polk, Pierce, Trempealeau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglas and La Pointe, who are opposed to the Nebraska Infamy, and in favor of the principles announced in the "Republican" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 13th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committee.

Madison, August 11.

THE COUNTY FAIR.—The prospects for a large turn-out on this interesting occasion; for a full display of articles, and for a good time generally, are encouraging. The late rains have laid the dust and left the roads in good condition, besides cooling off the atmosphere to a more agreeable temperature. We shall be disappointed, if there is not a much larger attendance than at any preceding fair.

THE WISCONSIN FARMER.—The September number of this useful periodical has been issued and contains the usual amount of valuable agricultural, horticultural and mechanical information. The only fault we have ever been inclined to find with "Farmer" is the ruinously low price at which it is afforded. It is too cheap by one half. No publisher ought to endure the toil necessary to getting it out, and no farmer ought to ask for it, for less than one dollar per year.

It has passed into an axiom, that publishers of papers are the most poorly paid of any class of business men, considering the amount of labor and responsibility devolving upon them. Men of abundant means, who are ready to lavish money upon a thousand useless objects, will haggle an hour to reduce the price of newspaper a few cents, and then perhaps when the minimum is reached, wish to pay in something besides money, always holding their own articles at the very highest market prices. The prices of labor and of paper are constantly advancing, and yet a corresponding advance upon the subscription price would probably be the means of a diminution of the already too slender support of the newspaper.

It is a grievance springing from several causes, perhaps irremediable, the principal of which are, a want of proper appreciation by the public of the value and usefulness of the newspaper; the disposition of young adventurers to multiply the number of presses, thus dividing the patronage, and the ruinous competition of cheap city papers. Through these causes, papers that deserve to be handsomely supported and ought to become permanently established, drag out a precarious existence, meeting and surmounting discouragement and embarrassment at every step, and only kept up by the delusive hope of a better time coming.

SYRACUSE, Sept. 6.
CONVENTION OF THE "SURT" AT SYRACUSE.—The democratic soft shell convention met here to-day. There is considerable excitement. The Nebraska men held a caucus, headed by Rynders, and resolved to withdraw from the convention if anti-Nebraska resolutions were passed.

A third and still larger party than any which has preceded it, will be ready to leave Massachusetts for Kansas on the 20th instant. The Weston biggarts are likely to have their hands full if they undertake to "remove" all the free men who have already gone or are preparing to go, to that territory.

CLEVELAND, Sept. 6.
NEWSPAPER PUBLICATION.—The Cleveland Plaindealer says in relation to the general complaint of a want of a fair remuneration for the capital and labor of publishers:

As the Tribune has done, so will a large number of publishers have to do. The price of paper and labor have advanced enormously.—Advertising patronage too, the only real dependence for profit in a daily paper, has fallen off so much, owing to the depressed condition of the country, by the failure of the crops, that a general decrease in the size of dailies must take place, or the papers will fail. Even this in a large number of cases will not arrest suspension. It is our opinion that at least three-fourths of the newspapers in the country are not making a dollar, and we predict that one quarter of them will fail before the year has gone round. We think every publisher who looks rightly at the matter will be of our opinion. Old established papers will probably live through to better times, but they will make but little money, and generally they will be gratified if they can make both ends meet.

CLEVELAND DUELIST.—A young man named Short, a clerk in a dry goods store in this city, and a young lawyer named Poacock, from Chicago, fought a duel in Kentucky yesterday. Short was slightly wounded in the left breast at the second round. They fought about a young girl to whom Short was engaged.

THE GOVERNOR OF NEBRASKA.—Mr. Burt is a South Carolinian. But the Maysville, Ky., Express, a democratic paper, owned and edited by a democratic member of congress, takes the "starch" out of Governor Burt in the following manner. Of course these locofocos ought to know one another:

When *His Executive Highness* offered to Gen. W. O. Butler the governorship of the territory of Nebraska, a spirit of shame went creeping through the democratic ranks of the west and south, and a deep blush suffused the cheeks of the democracy throughout the union. The insult was felt and acknowledged by the whole country, and some did not hesitate to cry out against the foul blot made by the president and his communists. But now, when a deeper wrong and more palpable insult has been offered, they are all silent and seem to have forgotten the stigma which is resting upon them, or perhaps they do not know who has descended to accept the office so justly refused by Gen. Butler.

"Hi! excellency, Gov. Francis Burt," late third auditor and first overseer of the treasury under James Guthrie, is the individual, and if the cabinet had taken creation with a fine toothed comb, they could not have found another such man, or have more effectually completed the insult to one so much superior in honesty and worth. Mr. Burt never having participated to any extent in politics, save to change his coat for the occasion, and be "pig or puppy" as the case might require, has only been observed in his social and official capacity as a tool to the secretary of the treasury, and a spy in particular over the "hands," as he is pleased to term the clerical contractors and employers of that department, and all those who have been connected with him in cases where demagogism, pomposity, and codfish aristocracy might be manifested, have never failed to turn from him with contempt and disgust. "In blissful ignorance" of law, equity, or justice, his arbitrary power was exercised in a most ludicrous, and sometimes in a most troublesome manner. No body knows what will be the effect of this metamorphosis, but if we are allowed to draw conclusions from the past, his future career will prove most transcendently luminous. So much for the present administration.

RONINSON'S ATHENIUM.—A LESSON FOR POLITICIANS.—Uncle Tom's Cabin, a garbled and imperfectly dramatized version of the popular novel of the same name, was presented at this canvas theatre, on Monday evening, to one of the largest crowds ever assembled in this city. The actors were far removed from the hearers, the playing at the best, was anything but satisfactory, the seats were uncomfortable, and the weather intensely hot; but in spite of these drawbacks, the audience sat out the representation with a patience that we tried in vain to irritate. There is something in the piece itself—opening up, as it does, a few of the horrible possibilities of slavery as it exists in the south—that will, in spite of the current prejudices of the day, the appeals of interest and the stiffness of conscience, make itself heard and felt.

We well know what fate such a performance would have met in this city, only a few years past. The stage-fixtures would have been destroyed, the canvas torn to shreds, and the actors themselves hooted out of town—lucky in escaping a coat of tar and feathers at the hand of the incensed crowd who would have followed. From such a retrospect, we turned to a recent scene in a neighboring city: A member of the United States senate, idolized by his friends, the lately acknowledged leader of a great and triumphant party, a man of intellect, of consummate tact and of large public experience,—attempted, at his own home, among his familiar acquaintances, to justify or palliate his agency in destroying "a justif" which had for more than thirty years been embalmed in the hearts of the people as a sacred thing," that slavery might be permitted on the soil which that compact consecrated to freedom,—and he was hooted from the stand and driven to his hotel!—Truly, when Uncle Tom's Cabin—the very quintessence of abolitionism—more powerful than a cart load of editorial leaders, or an avalanche of speeches—is listened to and applauded with unmistakable zest and sympathy by those who vote; while a pro-slavery senator can command no response to his cunning sophistry, his protestation of patriotism, and masterly special pleading, except such as is conveyed in jeers and hisses,—truly we have fallen upon strange times! For you, oh truckling politician! in the silent tears that rolled down many a manly cheek, when Uncle Tom was buried from his home to the hard fare and brutal treatment of the far south, there is a lesson that you will do well to study. The rough hands that wiped those tears away can deposite ballots!—*Galena Jeffersonian.*

HOW TO KEEP GATHERED FRUIT AND FLOWERS ALWAYS FRESH.—A friend has just informed us that fruit and flowers may be preserved from decay and fading, by immersing them in a solution of gum arabic in water two or three times, waiting a sufficient time between each immersion to allow to dry. This process covers the surface of the fruit with a thin coating of gum, which is entirely impervious to the air, and thus prevents the decay of the fruit, or the withering of the flower. Our friend has roses thus preserved which have all the beauty of freshly plucked ones, though they have been separated from the parent stem since June last. To insure success in experiments of this kind, it should be borne in mind that the surface must be completely covered; for if the air only gains an entrance at a pin-hole, the labor will be lost. In preserving specimens of fruit, particular care should be taken to cover the stem and all with the gum. A good way is to wind a thread of silk about the stem, and then sink it slowly into the solution, which should not be so strong as to leave a particle of the gum undissolved. The gum is so perfectly transparent, that you can with difficulty detect its presence, except by the touch. Here we have another method of fixing the fleeting beauty of nature, and surrounding ourselves with those objects which do most elevate the mind, refine the taste, and purify the heart.—*Country Gentleman.*

LAKE SUPERIOR RAILROAD.—A correspondent of the Green Bay Advocate, gives the following account of the only iron track in operation in the Lake Superior country:

The only railroad actually in operation yet, is one from the foot to the head of the Portage, at the "Soo," about one mile. We rode over it one day, and came very near having an accident to record. A switch had been left out of place, but the driver saw the danger in time, and "reversed" the horses; the breeching proved strong enough for the emergency and the cars were stopped in time to prevent their running off the track.

MEMORY QUICKENED IN DROWNING.—The following circumstance, vouches for as true, is among many instances in which the memory has received a remarkable quickening in apparent drowning. Such facts are incontestable; the solution has never been satisfactorily given:

"Some years since, A held a bout of B for several hundred dollars, having some time to run. At its maturity he found that he had put it away so carefully that he was unable to find it. Every search was fruitless. He only knew that it had not been paid or traded away. In this dilemma he called on B, relating the circumstance of its disappearance, and proposed a receipt as offset to the bond, or rather an indemnifying bond against its future collection, if ever

IN PROBATE, COUNTY COURT OF ROCK COUNTY.

In matter of the Estate of Aaron Jerome, deceased.

ON this 15th day of August, A. D.

1854, upon reading and filing the petition of Cariline Gibbs, stating that one Ira Gibbs of the county of Rock, died intestate on or about the 18th day of July 1854, and praying that she and Cheney Rose be appointed administratrix of the estate of said deceased. It is ordered, That said petition be heard before me, and in the said court, on the 11th day of September A. D. 1854, at 10 o'clock A. M. And it is further ordered, That notice of said application and hearing be given by publishing a copy of this order for three successive weeks, once in each week, in the Janesville Gazette, a newspaper printed in said city, prior to said hearing. IN PROBATE, COUNTY COURT, FOR ROCK COUNTY.

In matter of the Estate of Sumner C. French.

ON reading and filing the petition of

Eliza L. French, guardian of said minor represent-

ing among other things that the said ward is seized of

certain real estate in this county, and that it is ex-

plained that the same should be sold, and praying for

consent to sell the same. And it appears from the

and still petition that it would be beneficial to the said

minor to sell said real estate; it is ordered and directed

that the same be sold, and all persons interested in said estate, within ten days before the judge of this court, on Monday the 9th day of October, A. D.

1854, at one o'clock in the afternoon, at the office of

the said judge in the city of Janesville. In said court,

and there to show cause, if any there shall be, why a

license should not be granted for the sale of said real

estate according to the prayer of said petition. And it is

further ordered, that a copy of this order shall be

published for three successive weeks prior to said day

of hearing in the Janesville Gazette, a weekly news-

paper printed and published, in the city of Janesville aforesaid.—Dated, September 4th, 1854.

The electors of Rock county who are determined to support no man for office who is not positively and fully committed to the support of the principles announced in the "Republican Platform" adopted at Madison on the 15th of July last, and whose personal character, political associations and private conduct, do not afford a guarantee that he is reliable, are invited to meet in their respective townships or wards at the place of holding the last township or ward election, on Tuesday the 16th day of October next, at 2 o'clock P. M. for the purpose of effecting a thorough organization of the Republican party in their towns or wards, and of appointing delegates to a county convention hereby called at the Court House in Janesville, on THURSDAY, the 12th day of October next, at 2 o'clock P. M., to nominate a county ticket.

The towns and wards will be entitled to representation in the county convention as follows:—to wit:

Avon,	8	Janesville 1st ward 4
Beloit,	10	2d ward 4
Bradford,	4	3d ward 2
Center,	3	4th ward 5

17th SENATORIAL DISTRICT CONVENTION.

At the same time and place above designated in the respective towns and wards for meetings, to choose delegates to the county convention, the Republican electors of the wards of the city of Janesville, and of the towns in this county comprised in the 17th senatorial district, are requested to select an equal number of delegates to which they are entitled under the above appointment in the county convention, to represent them in a senatorial convention hereby called at the Court House in Janesville, on THURSDAY the 12th day of October next at 11 o'clock, A. M., to nominate a candidate for senator.

By order of the County Committee.

Congressional Convention—Second District.

The electors of the second congressional district of Wisconsin, comprising the counties of Rock, Green, Dane, Iowa, Lafayette, Grant, Richland, Sauk, Adams, Portage, Marathon, Crawford, Bad Axe, La Crosse, Monroe, Polk, Pierce, Trempe a'neau, Elk, Chippewa, Clark, Dunn, Buffalo, St. Croix, Douglas and La Pointe, who are opposed to the Nebraska Iniquity, and in favor of the principles announced in the "Republican" platform, adopted at Madison July 18th, are invited to meet in their respective assembly districts and select two delegates from each to represent them in a congressional convention to be held at Mineral Point on Wednesday, the 13th of September, at 12 o'clock M., to nominate a candidate to be supported at the approaching election. By order of the state central committee, W. M. A. WHITE, Chairman.

Madison, August 14.

THE COUNTY FAIR.—The prospects for a large turn-out on this interesting occasion; for a full display of articles, and for a good time generally, are encouraging. We shall be disappointed, if there is not a much larger attendance than at any preceding fair.

THE WISCONSIN FARMER.—The September number of this useful periodical has been issued and contains the usual amount of valuable agricultural, horticultural and mechanical information. The only fault we have ever been inclined to find with "Farmer" is the ruinously low price at which it is afforded. It is too cheap by one half. No publisher ought to endure the toil necessary to getting it out, and no farmer ought to ask for it, for less than one dollar per year.

It has passed into an axiom, that publishers of papers are the most poorly paid of any class of business men, considering the amount of labor and responsibility devolving upon them. Men of abundant means, who are ready to lavish money upon a thousand useless objects will boggle an hour to reduce the price of a newspaper a few cents, and then perhaps when the minimum is reached, wish to pay in something besides money, always holding their own articles at the very highest market price. The prices of labor and of paper are constantly advancing, and yet a corresponding advance upon the subscription price would probably be the means of a diminution of the already too slender support of the newspaper.

It is a grievance springing from several causes, perhaps irretrievable, the principal of which are, a want of proper appreciation by the public of the value and usefulness of the newspaper; the disposition of young adventurers to multiply the number of presses, thus dividing the patronage, and the ruinous competition of cheap city papers. Through these causes, papers that deserve to be handsomely supported and ought to become permanently established, drag out a precarious existence, meeting and surmounting discouragement and embarrassment at every step, and only kept up by the delusive hope of a better time coming.

Syracuse, Sept. 6.

CONVENTION OF THE "SOFTS" AT SYRACUSE.—The democratic soft shell convention met here to-day. There is considerable excitement. The Nebraska men had a caucus, headed by Ryders, and resolved to withdraw from the convention if anti-Nebraska resolutions were passed.

A third and still larger party than any which has preceded it, will be ready to leave Massachusetts for Kansas on the 25th instant. The Weston braggarts are likely to have their hands full if they undertake to "remove" all the free-men who have already gone or are preparing to that territory.

Clinton, Sept. 5.

A CHICAGO DUELIST.—A young man named Short, a clerk in a d. y. goo l store in this city, and a young lawyer named Pocock, from Chicago, fought a duel in Kentucky the last Friday. Short was fatally wounded in the left breast, at the second round. They fought about a young girl to whom Short was engaged.

THE GOVERNOR OF NEBRASKA.—Mr. Burt is a South Carolinian. But the Maysville, Ky., Express, a democratic paper, owned and edited by a democratic member of congress, takes the "starch" out of Governor Burt in the following manner. Of course these locofocos ought to know one another:

When *His Executive Highness* offered to Gen. W. O. Butler, the governorship of the territory of Nebraska, a spirit of shame went creeping through the democratic ranks of the west and south, and a deep blush suffused the cheeks of the democacy throughout the union. The insult was felt and acknowledged by the whole country, and some did not hesitate to cry out against the foul blot made by the president and his communists. But now, when a deeper wrong and more palpable insult has been offered, they are all silent and seem to have forgotten the stigma which is resting upon them, or perhaps they do not know who has condescended to accept the office so justly refused by Gen. Butler.

"Hi! excellency, Gov. Francis Burt," said third auditor and first overseer of the treasury under James Guthrie, is the individual, and if the cabinet had talked creation with a fine toothed comb, they could not have found another such man, or have more effectually completed the insult to one so much superior in honesty and worth. Mr. Burt never having participated to any extent in politics, save to change his coat for the occasion, and be "pig or puppy" as the case might require, has only been observed in his social and official capacity as a tool to the secretary of the treasury, and a spy in particular over the "hands," as he is pleased to term the clerical contractors and employers of that department, and all those who have been connected with him in ease, where demagogism, pomposity, and codfish aristocracy might be manifested, have never failed to turn from him with contempt and disgust. "In blissful ignorance" of law, equity, or justice, his arbitrary power was exercised in a most ludicrous, and sometimes in a most troublesome manner. Nobody knows what will be the effect of this metamorphosis, but if we are allowed to draw conclusions from the past, his future career will prove most transcendently luminous. So much for the present administration.

ROBINSON'S ATHENIUM—A LESSON FOR POLITICIANS.—Uncle Tom's Cabin, a garbled and imperfectly dramatized version of the popular novel of the same name, was presented at this canvass theatre, on Monday evening, to one of the largest crowds ever assembled in this city. The actors were far removed from the hearers, the playing at the best, was anything but satisfactory, the seats were uncomfortable, and the weather intensely hot; but in spite of these drawbacks, the audience sat out the representation with patience that we tried in vain to imitate. There is something in the piece itself—opening up, as it does, a few of the horrible possibilities of slavery as it exists in the south—that will, in spite of the current prejudices of the day, the appeals of interest and the stirrings of conscience, make itself heard and felt.

We well know what fate such a performance would have met in this city, only a few years past. The stage-fixtures would have been destroyed, the canvas torn to shreds, and the actors themselves hooted out of town—lucky in escaping a coat of tar and feathers at the hands of the incensed crowd who would have followed. From such a retrospect, we turned to a recent scene in a neighboring city: A member of the United States senate, idolized by his friends, the lately acknowledged leader of a great and triumphant party, a man of intellect, of consummate tact and of large public experience,—attempts, at his own home, among his familiar acquaintances, to justify or palliate his agency in destroying "a compact" which had for more than thirty years been embodied in the hearts of the people as a sacred thing,—that slavery might be permitted on the soil which that compact consecrated to freedom,—and he was hooted from the stand and driven to his hotel!—Truly, when Uncle Tom's Cabin—the very quintessence of abolitionism—more powerful than a cart load of editorial leaders, or an avalanche of speeches—is listened to and applauded with unmistakable zeal and sympathy by those who vote; while a pro-slavery senator can command no response to his cunning sophistry, his protestation of patriotism, and masterly special pleading, except such as is conveyed in jeers and hisses,—truly we have fallen upon strange times! For you, oh truckling politician! in the silent tears that rolled down many a manly cheek, when Uncle Tom was hurried from his home to the hard fare and brutal treatment of the far south, there is a lesson that you will do well to study. The rough hands that wiped those tears away can deposite ballots!—*Galena Jeffersonian.*

HOW TO KEEP GATHERED FRUIT AND FLOWERS ALWAYS FRESH.—A friend has just informed us that fruit and flowers may be preserved from decay and fading, by immersing them in a solution of gum arabic in water two or three times, waiting a sufficient time between each immersion to allow to dry. This process covers the surface of the fruit with a thin coating of gum, which is entirely impervious to the air, and thus prevents the decay of the fruit, or the withering of the flower. Our friend has roses thus preserved which have all the beauty of freshly plucked ones, though they have been separated from the parent stem since June last. To insure success in experiments of this kind, it should be borne in mind that the surface must be completely covered; for if the air only gains an entrance at a pin-hole, the labor will be lost. In preserving specimens of fruit, particular care should be taken to cover the stem end and all with the gum. A good way is to wind a thread of silk about the stem, and then sink it slowly into the solution, which should not be so strong as to leave a particle of the gum undissolved. The gum is so perfectly transparent, that you can with difficulty detect its presence, except by the touch. Here we have another method of fixing the fleeting beauty of nature, and surrounding ourselves with those objects which do most elevate the mind, refine the taste, and purify the heart.—*Country Gentleman.*

LAKE SUPERIOR RAILROAD.—A correspondent of the Green Bay Advocate, gives the following account of the only iron track in operation in the Lake Superior country: The only railroad actually in operation yet, is one f m the foot to the head of the Portage, about the "Soo," about one mile. We rode over it one day, and came very near having an accident to record. A switch had been left out of place, but the driver saw the danger in time, and reversed the horses; the breeching proved strong enough for the emergency and the cars were stopped in time to prevent their running off the track.

SOLD FOR A SONG.—The two U. S. snug bonts, built for the improvement of the Mississippi river only a year ago, at a cost of **eighty thousand dollars**, have just been sold at auction, in St. Louis, by order of President Pierce, for \$7,925! This is preparatory to abandoning all operations for river and harbor improvements at the west under government auspices. Who will not hurrar for "Pierce, democracy, and Nebraska!"

The English are so confident that the proposed attack on Sevastopol will result successfully, that several members of parliament and other dignitaries have determined to make an excursion to the Black Sea to witness that warlike feat. Some 90,000 troops will invest it by land, and the fortress will be bombarded from the water by a tremendous fleet. We infer from the immense beleaguering force, and the confident tone of public opinion in Europe, that Sevastopol will fall into the hands of the allied powers. Riga, Revel, Helsingfors, and Kronstadt, ports on the bays of the Baltic, are next on the programme of places, the ownership of which the allies are anxious to transfer.

Judge Bullock, of Louisville, before whom the writ was returned, decided after hearing the argument, that Louisville had transcended its powers in issuing the bonds, and that the ordinance authorizing them was void.

Short was fatally wounded in the left breast, at the second round. They fought about a young girl to whom Short was engaged.

MEMORY QUICKENED IN DROWNING.—The following circumstance, vouched for as true, is among many instances in which the memory has received a remarkable quickening in apparent drowning. Such facts are incontestable; the solution has never been satisfactorily given:

"Some years since, A held a boud of B for several hundred dollars, having some time to run. At its maturity he found that he had put it away so carefully that he was unable to find it. Every search was fruitless. He only knew that it had not been paid or traded away. In this dilemma he called on B, relating the circumstance of its disappearance, and proposed a receipt to offset to the bond, or rather an indemnifying bond against its future collection, if ever found.

To this great surprise, B not only refused to meet the terms of difficulty, but positively denied owing him anything, and strongly intimated the presence of a fraudulent design on the part of A. Without legal proof, and, therefore, without redress, he had to endure both the loss of his money and the suspicion of dishonorable intention in urging the claim. Several years passed away without any change in the nature of the case, or its facts, as above given, when one afternoon, while bathing in— river, A, either from inability to swim, or cramp, or some other cause, was discovered to be drowning. He had sunk and risen several times, and was floating away under the water, when he was seized and drawn ashore. The usual remedies were applied to resuscitate him, and although there were signs of life, there was no appearance of consciousness. He was taken home in a state of exhaustion, and remained so for some days.

On the first return of strength to walk, he left his bed, went his book case, took out a book, opened it, and handed his long lost bond to a friend who was present. He then informed him that when drowning and sinking, as he supposed to rise no more, in a moment, there stood out distinctly before his hand as a picture, every act of his life, and from the hour of childhood to the hour of sinking beneath the water, and among them the circumstance of putting the bond in the book; the book itself, and the place in which he had put it in the book case. It is needless to say that he recovered his own with usury.

There is no doubt that this remarkable quickening memory results from the process which in such cases is going on—the extinguishing of life. It is somewhat analogous to breaking in the light of another world, which in so many well-attested cases of death-bed scenes, enables the departing spirit, even before it has absolutely left its clay tenement, to behold and exist in the glories of the future state. Is it not a fair inference, that when the soul shakes off the clogs and encumbrance of the body, it will possess its capacities for enjoyment of which on earth it was unsusceptible.

As regards the memory, it will be observed by most persons, how readily in life we forget that which we do not desire to remember, and in this way we get rid of much unhappiness. Can we do this after death? This is an important and practical question.—*Clist's Adv.*

THE TELEGRAPH IN ENGLAND.—On the 1st of January last the number of miles of telegraph in operation, belonging to the electric telegraph company, was 4,400, skirting all the lines of all-way in Great Britain, and covering the surface of the island, with the exception of the highlands of North Wales and Scotland, with a complete net-work. The number of miles of wire was 24,340. In six months previous, the number of messages sent was 212,440, yielding £50,919, which gave a profit paid in dividends, of seven per cent, per annum. Franked message papers are now used, procurable at any stationer's, which dispenses with the necessity of sending money to the telegraph station; and it is proposed to issue electric stamps, on the same plan with postage stamps. There is also a system of remittance messages in progress of introduction, by means of which money paid in at any of the stations, is paid out at any other station required, and which is expected to supersede the government money office, which works through the slower medium of the post office.

VALUABLE APPLICATION.—From wounds received from old nails, or occasioned by broken glass, peach tree leaves, well steeped and applied to the wound, will give immediate relief. By thickening the liquid from which the leaves have been taken, it will keep moist for hours. In case leaves cannot be obtained, a tea made of the twigs of the peach tree, thickened, will do as well.

The Journal of Commerce says that a pair of approved and economical boilers have been put into the E-lesson, in place of the recent motor, and that she will soon take her place among our best steamers. It would appear from this that the hot air project has been abandoned.

The whigs of the third congressional district of Maine, have unanimously re-nominated E. Wilder Farley, and passed resolutions against the repeal of the Missouri compromise and in favor of continuing the organization of the national whig party.

The whole number of buildings destroyed at Greystown was 175. The computed value of these with their contents, was \$1,500,000. Only eight small buildings were saved from the general ruin. The owners of the property, besides residents of the city, comprised Americans, English, Germans and Italians residing in Grenada and Italy, Nicaraguans, citizens of the interior town of Nicaragua, and several Frenchmen who had valuable property in charge.

The New York Tribune says that Gen. Cazneau has been sent to the Dominica part of Hayti to negotiate a treaty between this country and the Dominican republic, and to endeavor if possible to secure a port on the bay of Samana to serve as a naval station. It is conjectured that annexation lies behind this negotiation, and that the hot air project has been abandoned.

The sale of the reserved seats for the opening concert of Grisi and Mario took place at Castle Garden on Friday afternoon. At first the bidding was rather brisk, the first ticket being knocked down to a sort of Mrs. Harris for \$250. She is said to be the foolish old English woman who fancies herself in love with Mario, and follows him all over, much to his annoyance, as that of his singing companion. After the first ticket was sold, the bids rapidly declined, until they reached the moderate premium of 50 cents, at which rate a fair number were disposed of.

HARD CEMENT FOR SEAMS.—A very excellent cement for seams in the roofs of houses, or for any other exposed places, is made with white lead, dry white sand, and as much oil as will make it into the consistency of putty. This cement gets as hard as any stone in the course of a few weeks. The lead forms a kind of flux with the sand; it is excellent for filling up cracks in exposed parts of brick buildings; it is also a good cement for putting up the base of chimneys, where they project through the roofs of shingled houses. We have made this cement and tried it, and speak about it from experience only, for we have no knowledge of its ever having been described before.—*Germantown Tel.*

THE CITY OF LOUISVILLE BROUGHT UP ON A WRIT OF QUO WARRANTO.—The city of Louisville issued thirty years bonds sometime since, amounting to two hundred thousand dollars, for the purchase of the wharf, and one hundred thousand dollars for a basin in the lower part of the city. A writ of quo warranto was issued out in the name of the Commonwealth against the city of Louisville, under which the city was required to show her authority for issuing such bonds as she had issued under an ordinance.

Janesville, Sept. 7.

THE GREAT SINGERS.—Grisi and Mario made their first appearance in America at Castle Garden, New York, on Monday evening, in the opera *Lucrezia Borgia*. The Evening Post intimates that expectation was too highly raised, and a feeling of disappointment took possession of the house, such as the visitor feels at first before Niagara. As much curiosity was shown to see Grisi and Mario themselves. The story of her insane attachment is a precious morsel to the scandal-mongers of New York. Her name is not Miss Coutts, and she is no connexion of the Coutts family.—*Wisconsin.*

To DRIVE AWAY RATS.—A friend has just informed the Rural New Yorker of a plan he adopted to get rid of rats. His premises swarmed with them. He took a small fish hook, attached to a fine wire and suspended on it a piece of cheese, letting it hang about a foot from the ground. One of the rats leaped at it, and was hooked and set up such a horrible squeal, noise and rattle, that all the rest soon fled. Not a rat remained on the premises.
